

DESCRIPTION:

DIVERSITEX premium grade laser laminates are engineered with high tenacity nylon 6,6 multi-filament fiber that is solution dyed, locking the color in at the molten polymer extrusion level. CORDURA® TrueLock™ fabric has excellent color fastness, UV-fade/abrasion resistance, extended UV strength stability, and long-lasting color vibrancy. All fabrics are woven/constructed in accordance with MIL-C-32439B, have a dull matte appearance, and meet NIR spectral reflectance ratings.

APPLICATION:

Military/tactical body armor, ammunition/modular pouches, medical/rescue gear, Individual First Aid Kits (IFAK), load-carriage, elbow/knee pads, outdoor accessories, camping equipment, backpacks, workwear, footwear, weapons cases, vehicle accessories, aviation equipment, firefighting gear.
